DETAILED ACTION

Status of the Application

Claims 1-7, 23-24, 26 are pending.

Applicant's request for reconsideration and submission of a declaration by inventors Darrell Conklin and Zeren Gao under 37 CFR 1.131 in a communication filed on 1/18/2005 are acknowledged.

Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-7, 23-24 and 26 remain rejected under 35 U.S.C. 102(e) as being anticipated by Agarwal et al. (U.S. Publication No. 20030139572; corresponding 371 U.S. application is 10/239663). This rejection has been discussed at length in Paper No. 16, mailed on 7/14/2004.
3. Applicants have submitted a declaration under 37 CFR 1.131 by inventors Darrell Conklin and Zeren Gao along with exhibits establishing that the inventors conceived the subject matter of claims 1-7, 23-24 and 26 prior to the earliest filing date of the Agarwal et al. reference.
4. As indicated in the previous Office Action, the instant claims were also anticipated by U.S. Publication No. 20030139572, which corresponds to U.S. application No. 10/239663 (371 U.S. application of PCT/US01/09226). In view of the fact that application 10/239663 claims priority to U.S. provisional Application No. 60/192158 filed on 3/24/2000, and the subject matter of claims 1-7, 23-34 and 26 is disclosed in said provisional application (SEQ ID NO: 47), the 102(e) date for U.S. Publication No. 20030139572 is 3/24/2000.

The declaration filed on 1/18/2005 under 37 CFR 1.131 has been considered but is ineffective to overcome the Agarwal et al. reference. The Agarwal et al. reference is a U.S. patent application

Art Unit: 1652

publication of a pending application that claims the rejected invention. An affidavit or declaration is inappropriate under 37 CFR 1.131(a) when the reference is claiming the same patentable invention, see MPEP § 2306. If the reference and this application are not commonly owned, the reference can only be overcome by establishing priority of invention through interference proceedings. See MPEP Chapter 2300 for information on initiating interference proceedings. If the reference and this application are commonly owned, the reference may be disqualified as prior art by an affidavit or declaration under 37 CFR 1.130. See MPEP § 718.

Conclusion

5. No claim is in condition for allowance.
6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
